ANNUAL STATISTICAL RETURNS

AND

BRIEF NOTES ON VACCINATION IN BENGAL

FOR THE YEAR 1888-89.

BY

SURGEON-MAJOR W. H. GREGG, M.B., M.R.C.P., London, Dip. Publ. Health, Camb.,

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1889.

Not printed for Sale.

No. 4817.

FROM SURGEON-MAJOR W. H. GREGG,

Sanitary Commissioner for Bengal,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

MUNICIPAL DEPARTMENT.

Dated Calcutta, the 5th August 1889.

SIR,

I HAVE the honour, in accordance with the orders of the Government of India, No. 28—1579-95, dated the 15th July 1887, to submit the annual statistical returns attached, and the following brief notes on vaccination in Bengal for the official year 1888-89.

2. Dr. Lidderdale was in charge of the Department from the commencement of the year up to the 4th August 1888, with the exception of six weeks from 16th March to 30th April, during which time he was on privilege leave, and Dr. K. P. Gupta, Superintendent of Vaccination, Metropolitan Circle, in addition to his own duties, had charge of the Vaccination Department in Bengal. On the forenoon of the 5th August Dr. Lidderdale made over charge to Dr. D. D. Cunningham temporarily, and proceeded on furlough on medical certificate. I relieved Dr. Cunningham on the 25th August, and was in charge of the Department during the rest of the year.

3. The strength of the working establishment compared with that of the previous year was as follows:—

YEAR.	No. of			VACCINATORS.		APPRENTICES.	REMARKS.
	Head	Sub	and	Govt.	Private	Paid.	
1888-89	13	93	10	432	1,353	731	* Including the Health Officer of the Town of Calcutta, who is in charge of vaccination in that city.
1887-88	12	93		619	1,355	598	

The decrease in the number of head vaccinators is due to the abolition of the Government staff in the Sonthal Pergunnahs Circle on the introduction of the licensed system of vaccination in 1887. The increase in the number of paid vaccinators is owing to a larger number of men being employed in municipalities. The increase under licensed vaccinators and apprentices is due to the extension of the licensed system of vaccination in the several circles of the Province.

4. The total cost of vaccination throughout the Province for the year 1888-89 was Rs. 1,67,790-3, against Rs. 1,57,346-8-2 in the previous year, the average cost of each successful case being the same as in the previous year, viz., Rs. 0-1-6.

In Calcutta and its Suburbs the cost of vaccination was met by the City Corporation and the Suburban Municipality respectively, with the exception of the pay of the Deputy Superintendent in the case of the latter, which is borne by Government. Mofussil municipalities contributed Rs. 13,566-13-1 towards the cost of vaccination, against Rs. 12,437-5-7 in 1887-88. The contributions from private sources amounted to Rs. 587-2-4, against Rs. 438-7 in 1887-88. In Calcutta each successful case cost Re. 1-3-1, against Re. 1-0-3 in 1887-88; in the Suburbs Re. 0-14-10, against Re. 0-14-2 in 1887-88; and in the mofussil generally Re. 0-2-8, against Re. 0-2-9 in 1887-88.

Work of the year.

5. The total number of vaccinations performed in Bengal during the year 1888-89 was—

In the seven circles, including Calcutta and the Suburbs ...	1,758,364	against	1,689,694	in 1887-88.
In municipalities and dispensaries ...	87,815	"	78,961	in 1887-88.
Total ...	1,846,169		1,718,655	in 1887-88.

or an increase of 127,514 during the year under report. Every circle, except the Ranchi Circle and the Suburbs of Calcutta, contributed to this increase. In Ranchi the number of vaccinations fell from 144,790 in 1887-88 to 139,454 during the year under report. The decrease is attributed by the Superintendent of Vaccination "partly to the great amount of protection already afforded and the consequent difficulty of finding cases." Emigration of families from Chota Nagpore Division to the tea districts is also said to account in part for the falling off in the number of operations during the year under report. In the Suburbs of Calcutta, including the Central Vaccination Depot, there was a decrease in the number of operations from 12,160 in 1887-88 to 10,396 in 1888-89. The decrease is accounted for by the Superintendent by presumed efficient protection in previous years, as evidenced by the absence of any epidemic of small-pox. Municipalities and dispensaries, it will be observed, show an increase of 8,854 operations during the year under report. Of the total number of persons vaccinated in 1888-89, 955,071 were males and 891,098 were females, distributed as follows according to sect or religion:—1,026,294 Hindus, 748,497 Mahomedans, 5,992 Christians, and 65,386 other classes. These figures compared with those of the previous year, which were 935,986, 728,751, 5,114, and 48,804 respectively, show that the protection afforded to all classes of the community was greater in 1888-89 than in 1887-88.

6. Of the total number of vaccinations performed in 1888-89, 1,838,215 were primary and 7,954 were secondary or re-vaccinations, the number of successful operations in each case being 1,820,371 and 3,465, and the ratio per cent. of successful operations 99.27 and 48.97, respectively, as detailed, circle by circle, in the following table:—

CIRCLES.	PRIMARY.			SECONDARY.		
	Total number of operations in 1888-89.	Number of successful operations in 1888-89.	Ratio per cent. of successful cases in 1888-89.	Total number of operations in 1888-89.	Number of successful operations in 1888-89.	Ratio per cent. of successful cases in 1888-89.
Calcutta ...	9,699	8,403	94.16	1,538	146	11.24

Municipalities, dispensaries, &c. ...	84,465	79,819	95.66	3,350	2,075	63.89
GRAND TOTAL ...	1,838,215	1,820,371	99.27	7,954	3,465	48.97

7. The average number of vaccinators, including the apprentices who actually performed some operations, was 2,564 during the year under report, against 2,374 in 1887-88, and the average number of operations performed by each of these men was 720 in 1888-89, against 724 in the previous year.

8. The following statement shows the ages of the successfully-vaccinated persons and the proportion per cent. to total primary vaccination according to age operations during the year under review:—

CIRCLES.	AGES OF SUCCESSFULLY VACCINATED IN 1888-89.			PROPORTION PER CENT. TO TOTAL PRIMARY VACCINATED IN 1888-89.			Population.
	Under one year.	One year and under six.	Six years and above.	Under one year.	One year and under six.	Six years and above.

9. Statement IV attached to this Report shows the total number of primary vaccinations and the number of successful operations during the last ten years. It will be seen that both as regards the total number vaccinated and successful operations, the total work of the year under review compares favourably with any of the previous years with which it is contrasted, and that, except in the case of native States and dispensaries, which exhibit a falling off, there was an increase under all heads during 1888-89 as compared with 1887-88.

10. As usual, the work of the year was generally started throughout the province with bovine lymph, supplemented by supplies from England and from the hills. The animal vaccination depôt in Calcutta under the supervision of the Superintendent of the Metropolitan Circle is the source whence bovine lymph is distributed, but it is also propagated through the calf by the Superintendent of the Orissa Circle at Cuttack. The Calcutta Municipality is supplied with vaccinated calves from the central depôt, and so was the late Suburban Municipality. The central depôt also provides calves for vaccination in the jail, hospitals, lunatic asylum, cooly depôt, Fort William Garrison, Barrackpore, Dum-Dum, and elsewhere, and also attends to calls from private persons living in and around Calcutta. Calf lymph is now much appreciated by the people, and is daily gaining ground in the public estimation. When used direct from the calf it is invariably successful, and appears to be potent, causing stronger fever and a greater amount of constitutional disturbance than humanised virus. When stored in tubes, however, and sent out to distant parts, the lymph is not uniformly successful: it solidifies, turns threadlike, loses its clearness and transparency, and becomes muddy. In spite of special care in filling and closing the tubes, lymph preserved in this way often fails in this country. There can be little doubt that excessive heat is one of the chief causes of this failure.

11. Speaking generally, the present attitude of the people towards vaccination is one of passive acceptance of the prophylactic. But in nearly every village there are families who refuse vaccination openly, or who covertly hide away their children from the vaccinators. What the villagers mostly object to is to allow their children to be used as vaccinifers, as this usually entails their carrying their children to the adjacent village and other discomforts. The class of people who mostly resist vaccination are the more

well-to-do classes, viz. Brahmans, Kayasths, Banias, and in some places village mandals.

Complaints are from time to time made to this office by the executive officers of the Vaccination Department of the great difficulty experienced by licensed vaccinators in realising their fees from the persons vaccinated. The fee is only two annas an operation, which it would not be worth the vaccinator's while to sue for in a civil court on account of the expense of instituting a suit. It has been suggested that the police or the village punchayat should help the vaccinators in realising their fees, but both these agencies are, in my opinion, open to objection.

12. During the year under report vaccination was introduced for the first

time into the district of Chittagong, and up to the close of the year 5 out of the 13 thanas of that district had been protected by the Government staff of vaccinators. In Bahar vaccination was extended to the 4 remaining thanas of Gya. In 8 out of the 11 thanas of Saran and 7 out of the 9 thanas of Champaran vaccination operations were performed for the first time to suppress local outbreaks of small-pox. None of the thanas of these two districts have as yet been taken up thoroughly for vaccination purposes. In 4 out of the 9 thanas of the Balasore district vaccination was introduced for the first time by the Government staff.

The licensed system of vaccination was extended to the 9 remaining thanas of Backergunge and to 5 thanas of Gya and the 3 remaining thanas of Patna.

The map facing this page shows at a glance the progress or extent to which vaccination has been introduced in Bengal, viz., the areas under the Act IV (B.C.) of 1855, prohibiting the practice of inoculation, is in force in the areas to which it has not yet been extended; the municipalities under the Act of rural areas in which the Compulsory Vaccination Act V (B.C.) of 1850 is in force; and the present boundaries of the vaccination circles.

13. The following table shows the result of vaccination on the prevalence of small-pox during the last seven years:—

	Number of areas which were under vaccination in—							Deaths from small-pox per mille of population.						
	1855-56	1856-57	1857-58	1858-59	1859-60	1860-61	1861-62	1855-56	1856-57	1857-58	1858-59	1859-60	1860-61	1861-62
Areas under vaccination	220	460	482	478	498	507	548	22	18	15	14	14	14	15
Not under vaccination	280	140	112	187	91	78	20	20	20	20	20	20	20	20

14. The following statement shows the degree of supervision exercised,

during the year under report, by the Superintendent, Deputy Superintendents, and other Inspecting Officers of the Vaccination Department, such as

Inspectors, Native Superintendents, &c., over the work of the vaccinators. The statement has been compiled from the annual reports of the Superintendents:—

1	2	3	4	5	6	7	8
Circles.	Superintendents.	Deputy Superintendents and other Inspecting Officers, such as Inspectors, Native Superintendents, Inspecting Vaccinators, and Head Vaccinators. 15. Among the Superintendents of Vaccination, Drs. Wood, Gupta and Waddell, and Assistant Surgeon Narendro Nath Gupta deserve credit for the manner in which they arranged for, and supervised the work of, their respective circles. Dr. Waddell especially exercised a vigilant degree of supervision over his subordinates, which has resulted in the Vaccination Department of the Darjeeling Circle being in excellent working order. The Deputy Superintendents who did exceptionally good work were—Assistant Surgeon Umesh Chunder Ghose of the 1st Metropolitan Circle, Assistant Surgeon Preumber Nath Mitter of the 2nd Metropolitan Circle, Assistant Surgeon Ashutosh Law of the 4th Metropolitan Circle, and Moulvie Tajamul Hossain of the Darjeeling Circle. The conduct of the following officers was unsatisfactory:—

Assistant Surgeon Kali Prosonno Ghosal, Superintendent, Sonthal Pergunnahs Circle.

Apothecary P. Veeriah Naidu, Superintendent, Orissa Circle.

Assistant Surgeon Kristo Churn Bose, late Deputy Superintendent, Darjeeling Circle.

Assistant Surgeon Prosonno Coomar Dey, Deputy Superintendent, Ranchi Circle.

The first two, especially the first, are unreliable officers, and their work is suspicious and altogether unsatisfactory. Serious charges of malpractices have been brought against these officers, which are being enquired into at present. The result will be communicated to Government. The third officer mentioned was reported to Government by my predecessor for disobedience of orders, and censured in Government order No. 1864P, dated 19th April 1888. He was shortly afterwards transferred from the Vaccination Department. The work and conduct of the fourth officer named also called for censure during the year. He has been warned. As regards the subordinate officers of the Department, such as Inspectors, Native Superintendents, Head Vaccinators, &c., the following table shows how many were dismissed, degraded, suspended, fined and warned during the year:—

	Total number serving during 1888-89	Dismissed	Degraded	Suspended	Fined	Warned
Inspectors ...	90	3	2	1	18	1
Native Superintendents and Inspecting Vaccinators ...	8
Head Vaccinators ...	19	2	...
Paid Vaccinators ...	193	2	7	1	41	7
Licensed Vaccinators ...	1,340	22	...	1	44	8
Apprentices ...	779	8

I have the honour to be,

Sir,

Your most obedient servant,

W. H. GREGG, M.B., M.R.C.P., LOND.,

DIP. PUBLIC HEALTH, CAMB.,

Sanitary Commissioner for Bengal.

OFFICE OF THE SANITARY COMM. FOR BENGAL,

The 25th May 1889.

W. H. GREGG, M.B., Dip. Publ. Health, Camb.,

Sanitary Commissioner for Bengal.

MUNICIPAL DEPARTMENT.

SANITATION.

CALCUTTA, THE 25TH AUGUST 1889.

RESOLUTION.

READ—

The brief notes on vaccination in Bengal for 1888-89 by the Sanitary Commissioner, Bengal.

Read also—

The Report of the previous year incorporated with the Sanitary Report, and the Resolution recorded on it.

Under the orders contained in the Resolution of the Government of India, in the Home Department, No. 28—1579-95, dated the 15th July 1887, the vaccination report, which had previously been incorporated in the annual report of the Sanitary Commissioner, has been excluded from it, and will in future be submitted triennially, only brief notes on vaccination with statistical returns being submitted for the two intervening years. The note for 1888-89 and the returns have been submitted by Dr. W. H. Gregg, who assumed charge of the department on the 25th August 1888 in succession to Dr. Lidderdale, who has retired from the service.

The following table shows the total number of primary vaccinations performed in 1888-89 as compared with those for 1887-88:—

	1888-89.	1887-88.
	Primary.	Primary.
Calcutta	9,600	9,800
Metropolitan Circles	417,061	391,912
Suburbs of Calcutta, including central vaccine depôts.	8,133	8,703
Total Metropolitan Circles	426,094	400,615
Darjeeling Circle	280,704	271,876
Ranchi do.	130,101	141,782
Sonthal Pergunahs do.	128,085	108,940
Eastern Bengal do.	567,067	540,407
Orissa do.	30,440	84,003
Behar do.	103,574	70,344
Total of Vaccination Circles	1,753,750	1,634,888
Municipalities and dispensaries, &c.	84,465	77,409
GRAND TOTAL	1,838,215	1,712,297

There has been an increase of 125,918 operations during the year. The Lieutenant-Governor notices with satisfaction an increase of 6,115 in vaccinations in municipalities, which had shown a steady decline since the year 1884-85.

The following table shows the strength of the working establishment in 1888-89 and the previous year:—

YEAR.	Superintendents	Deputy Superintendents	Inspectors and other supervising officers.	Head vaccinators	VACCINATORS.		APPRENTICES		REMARKS.
					Paid.	Licensed	Paid.	Licensed	
1888-89	8*	12	28	10	432	1,343	44	731	* Including the Health Officer of the Town of Calcutta, who is in charge of vaccination in that city.
1887-88	8*	12	28	21	419	1,335	60	608	

The total cost of vaccination was Rs. 1,67,790-3, against Rs. 1,57,346-8-2 in the previous year, but the average cost of each successful case was the same, viz., 1 anna 6 pie.

Vaccination was for the first time introduced into the district of Chittagong, and up to the close of the year 8 out of 13 thanas of that district had been pro-

ected by the Government agency. It was extended to the four remaining thanas of Gya, and to six thanas of Balasore: some vaccination operations were also performed for the first time to suppress local outbreaks of small-pox in Sarun and Chumparun.

A useful map, illustrating the extent to which vaccination has been introduced in Bengal, accompanies the Sanitary Commissioner's notes. From this it appears that the practice of inoculation is prohibited in all parts of Bengal, except the rural portions of the Durbhunga, Mozufferpore, Sarun, and Chumparun districts in Behar, a small portion of Balasore in Orissa, and the Cox's Bazar subdivision in Chittagong.

Favourable remarks have been recorded by Dr. Gregg concerning the good work done by Drs. Wood, Gupta, and Waddell and Assistant Surgeon Narendra Nath Gupta. Mention has also been made of the services rendered by Assistant Surgeons Umesh Chunder Ghose, Preumber Nath Mitter, Ashutosh Law, and Moulvie Tajamul Hossain, Deputy Superintendents of Vaccination. The observations will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Secretary to the Govt. of Bengal.

No. S $\frac{1R}{9}$ 2.

Copy of the Resolution, with a copy of the notes, submitted to the Government of India in the Home Department for information.

Circular No. S $\frac{1R}{9}$ 3.

Copy of the Resolution, and of the notes, forwarded to all Commissioners of Divisions for information.

No. S $\frac{1R}{9}$ 4.

Copy of the Resolution forwarded to the Sanitary Commissioner, Bengal, for information.

No. S $\frac{1R}{9}$ 5.

Copy of the Resolution, and of the notes, forwarded to the Inspector-General of Civil Hospitals, Bengal, for information.

No. S $\frac{1R}{9}$ 6.

Copy of the Resolution, with extract paragraph 15 of the notes referred to, forwarded to the Appointment Department, Bengal, for information, with reference to the remarks recorded by the Sanitary Commissioner regarding the conduct of certain officers of the Vaccination Department.

By order of the Lieutenant-Governor of Bengal,

F. J. MONAHAN,

Offg. Under-Secretary to the Govt. of Bengal.
